## Wastewater and rainwater Treatment for Reuse in overtourism-affected Islands increases Sustainability and fosters Eco-innovation

### MAIN GOAL

Testing practical, low-impact solutions (natural wastewater treatment, rainwater harvesting, atmospheric water production) directly in tourist areas, combining local knowledge and technological innovations.

### PROJECT OUTPUTS

1. Transnational "WATER CoP+50" promoting the uptaking of nature-based innovation in tourism-oriented island communities
2. Menorca Charter and its accompanying three-year Action Plan for a Sustainable Water–Tourism–Ecosystem Nexus
3. Water-House Label Awarding Protocol adopted to shift towards greater water efficiency across the Mediterranean island tourism supply chain

### SPECIFIC OBJECTIVE

2.4 Promoting climate change adaptation and disaster risk prevention, resilience, taking into account eco-system based approaches.

### Project Partners

1. Municipality of Pantelleria, IT
2. Border Towns and Islands Network, IT
3. ETAIREIA TOURISTIKIS ANAPTIKSIS KAIPROVOLIS PERIFERIAS LEYKOSIAS LTD, CY
4. Center for Social Innovation, CY
5. Ile Rousse Town, FR
6. University of Palermo, IT
7. Lampedusa and Linosa Municipality, IT
8. Eastern Regional Council, MT
9. Menorca Island Council, ES

### Pilot Areas

- Lampedusa-Linosa and Pantelleria Municipalities, IT
- Pachyammos Community, CY
- Ile Rousse, FR
- Pembroke, MT
- Menorca, ES
